Bowen makes his Statement and Escapes.

BROOKLYN, Feb. 23d.—The examining committee of Plymouth Church met to-night to hear Bowen's statement. Mr. Beecher and his counsel were present and some members of the Advisory Council. Bowen objected to the presence of out-siders. He then read his statement to the examining committee and was about to leave the room when Shearman said "Mr. Bowen, you will not be permitted to leave the room." Bowen stepped toward toward the door, but Mr. White, a member of the committee stepped forward and locked it. Mr. Bowen then went to the back door and made his exit. He formerly owned the house where the committee met and knew its passages. The nature of his statement could not be learned tonight.

Democratic conservatives and other citizens of the United States, irrespective of past political connections, desiring to co-operate with the Democratic party in its efforts and objects, are cordially invited to join in sending delegates to the national convention. LANSING, the Cashier who robbed the Bakersfield bank was also Deputy County Treasurer.

Messrs. Spence and Freeman assignees of Temple & Workman, employ only the lawyers formerly engaged by the banking firm before its failure, General Eastman and Mr. Bicknell.—*Republican.*

They have employed MCCONNELL, BICKNELL & ROTHCHILDS; BRUNSON, EASTMAN & GRAVES and J. G. HOWARD that we know of. Were all these gentlemen attorneys for the banking firm? If they were the management and end of the concern were no credit to their legal acumen.

WITH the exception of the few who expect to hold office under it, we have yet to find a man who favors the passage of what is known as MCCONNELL'S Irrigation Bill. All concede that it is unjust in its provisions and imposes a heavy tax on the farmer without giving him anything like an adequate return therefor. A number of remonstrances against the passage of this bill have already been sent to the delegation, and we advise the farming community to continue in the good work. To pass the bill as it now reads will be to create an onerous law from which only those who enforce its provisions will reap a benefit. We need legislation on irrigation, but it is legislation that will benefit the cultivators of the soil, not oppress them.

THE Bakersfield people are more fortunate than the people of Los Angeles. When their bank is robbed they find the culprit and compel him to return the funds. The Los Angeles people lose their money and cannot find the pocket it fell into. A few days ago it was announced that the Cashier of the Bakersfield bank had been knocked down and the bank robbed of $23,000. It turns out as the HERALD predicted at the time, that the Cashier was himself the robber. He has confessed and surrendered the money.

Advancing Backward.

As might have been expected, the *Express* is endeavoring to escape the self stultifying position in which it has placed itself on the fraudulent title question, by imitating the peculiar movement of the crawfish when it advances backward with its tail ahead. It now attempts to dodge the issue by writing long homilies on the injury which will be worked on innocent purchasers through a setting aside of the patents issued by the Government to such grants as the Lomos de Santiago. To those who have read the opinion of Secretary CHANDLER, the transparency of this position is so apparent as to need neither comment or explanation. The Secretary explicitly says that the evidence is conclusive that the present owners of the land were aware of the fraudulent means by which the grant had been increased in area when they became its purchasers. He then proceeds to advise that in the setting aside of patents known to have been obtained by fraud, care should be taken not to trespass on the rights of innocent purchasers. This disposes of the rodomontade in Senator JONES' elephant, on those who have purchased parts of the grants in good faith and without a knowledge that the patents had been obtained through representations not sustained by the facts. In the opinion of the Secretary no man who is an innocent purchaser of a farm in the Lomos de Santiago, or any other grant, should be disturbed. The innocent purchaser's plea is perhaps made in the interest of Senator JONES, but the fact that at the opening of the lot sale in Santa Monica the agent of the company announced that they would not give purchasers a warrant and defend deed, is indicative that Mr. JONES became part owner of Santa Monica and San Vicente ranches with the full knowledge that the titles were clouded and that, sooner or later, they would come up for settlement. We will also remind our cotemporary that in his special pleadings it has overlooked the fact that the dispute about the title to lands in which its master is interested is not one in which the government is concerned. It is a question in which only private parties are contestants, and is as dissimilar from the case of the Lomas de Santiago as the *Express* is unlike an intelligent and respectable newspaper. When we get down to the substratum of the question we find that it is only those who are holding land to which they know their title is not good who are crying out against investigation. The argument of the JONES foundling that though a grant may have been originally void, and the boundaries extended from four to eleven leagues, it should not now be disturbed, is similar to that of a Police Court shyster who, after having received the stolen goods as a fee, sets up a plea of not guilty and maintains the innocence of his client. It is an exhibition of moral turpitude that disgusts all right-minded men.

Railroad Progress.

The time is near at hand when the gap in the railroad between this city and San Francisco, will be so insignificent that the stages will traverse it in a few hours. One year ago the company fixed on the Fourth of next July as the day on which they would give us a continuous rail to the metropolis, and the indications now are that they will redeem their promise. Within the next ten days tunnel No. 5, in Tehachape Pass, will be completed. This tunnel has been the bar to progress in track laying for some time. The other tunnels and the road bed through the pass are ready for the ties and iron, and in a fortnight the work of track laying will go forward at the rate of two or three miles per day. Once through the pass, the country for a long distance is level, and but little work is necessary to prepare the bed for the ties and rails. In Solidad Pass every available grader is at work and before the track reaches that pass the grading will be completed. It is safe to say that by the middle of May the road will be completed to the Northeastern end of San Fernando tunnel. It is now being operated from this city to the Southwestern end. Thus it will be seen that before two months have elapsed the gap between the two ends of the road will not exceed two or three miles. The Superintendent of the San Fernando tunnel is confident he will have it completed by the first of July. The company have now at Caliente, and enroute to that place, rails and ties sufficient to build one hundred and twenty-five miles of road—the number of miles to build to close the gap is one hundred and twenty-four. Meanwhile the Southern Pacific track East of this city is streching toward the Colorado. The cars are running to Whitewater station in the desert one hundred and fifteen miles from this city, and soon another section of twenty miles will be completed beyond that point. It is the purpose of the company to have the road finished and in operation to the Colorado river by Fall. They will not stop there, but will push on Eastward until a connection is made with some road running Westward. This is a favorable showing for Southern California. The Southern Pacific Railroad Company are building more railroad than any other three companies in the United States, and every mile of track they build aids in the development of this part of the State, and adds thousands of dollars to our permanent wealth. Let the good work go on. With the completion of a Southern overland road Southern California becomes a rich and prosperous country, and Los Angeles its metropolis.

BABCOCK goes free. The Jury says he is not guilty. We said when he was arrested that he would go free unless he could be sacrificed without an opportunity to tell what he knew. BABCOCK is as guilty as JOYCE and others who have not escaped, but he was on the inside and had a friend at Court. To have let him suffer would have been to loose his tongue and he could tell too much. BAB. is all right. What an immaculate Government ours has got to be.

THE *Republican* of last evening propounds the following string of conundrums:

There is general distrust of an assignee of a bank who is a large debtor to the concern. The public are anxiously inquiring when Mr. Freeman, assignee, will commence suit against Mr. Freeman, debtor, for the large amount the latter owes Temple & Workman's bank. They also want to see Mr. Freeman, assignee, commence immediate suit against D. Freeman, endorser, on two notes of the aggregate amount of $5,573. Finally they want to see how economical Freeman, assignee, can be, in employing lawyers to prosecute D. Freeman, the large debtor to Temple & Workman.

Two of the ruffians escaped in the darkness but the third was observed by officer running in the direction of Second street and pursued. The fleeing burglar was swift of foot and by the time the police reached Third street the fleet burglar had turned into Bryant and the police reluctantly gave up the pursuit. A policeman standing at the corner of Third and Brannan streets saw a man passing leisurely along hatless and out of breath. He was overhauled by the officer and recognized as the party who had been chased.

BAKERSFIELD, February 24,—Lansing, the cashier, has confessed the robbery and returned the coin. S.

The Bakersfield Robbery.

SUMNER, Feb. 24th.—The mystery which veiled the daring and well executed robbery of the Kern Valley bank, in Bakersfield, on the night of February 17th, is at last solved. The detectives who have been using every exertion possible, last night interviewed Mr. S. J. Lansing, the cashier, and accused him of having committed the theft. He made a full confession and told them where all the money was. Eight thousand dollars was found in an old trunk in the wood-shed back of the bank building, and the remainder in the wall of the bank. This had been concealed there by cutting a hole in the wall paper and dropping the money into it. The mark made in the paper was concealed by hanging a picture over it. The money has all been recovered and Lansing is under arrest. Yesterday evening detectives A. W. Stone, of San Francisco; J. B. Hume, of Sacramento; Keyser, of San Francisco, and Jerome Meyers, ex-Chief of Police, Stockton, who have been for several days past looking up the robbery of the Kern Valley Bank, of Bakersfield, called upon Mr. S. J. Lansing, cashier of the bank, and accused him of the crime and gave him their reasons. Every incident connected with it pointed directly towards him. They talked to him for three hours and told him he had not been robbed, but was the culprit himself. He listened to all they had to say during the three hours without making any reply than said, "Oh, my mother!" and confessed having taken the money and concealed the gold in the walls of his room in the bank building, and the gold notes and currency in the wood house in the rear of the bank. He says he struck himself repeatedly in the face and on the head with his clenched fist, which produced the marks that were reported as have been made with a sand-bag. The money was all found with the exception of $20. He said he had no accomplice in the affair. He was arrested and gave bond in the sum of $5,000.

Legislative Proceedings.

[FROM THE SPECIAL REPORTER OF THE DAILY HERALD.]

SACRAMENTO, Feb. 24th.—The Senate met at ten o'clock.

After a little preliminary business the Senate took up for consideration the general file and acted upon it as follows:

The bill authorizing the widening Dupont street, San Francisco. After much discussion and amendment in the Committee of the Whole, the rules having been suspended, the bill was passed.

Flint called up the Assembly bill, re-incorporating Salinas City, and the rules were suspended and the bill passed.

The Assembly bill providing for the management of the Napa Insane Asylum and reorganizing the Board of Trustees thereof by legislating the present Board out of office, after being read at length was passed by a vote of 30 ayes to 6 noes.

McCune introduced a bill providing that all lists of property made for the Assessor shall contain the list of all property owned by the person assessed on the first Monday in March of each year.

After several roll-calls on an adjournment the Senate adjourned.

The greater part of the day was consumed in desultory discussion, and but little was done towards clearing the file. There are 67 bills on the general file and four special orders awaiting the consideration of the Senate.

The Assembly met at 11 A. M.

Heinshaw, from the Committee on Public Expenditures reported at lenth, that the Committee had considered the accounts presented for newspapers and periodicals furnished the members in accordance with resolutions passed to that effect. After careful investigation and comparison they were compelled to reduce many of the accounts charged as being exorbitant although not unusual during Legislative sessions. They were at a loss to know why Legislators should be compelled to pay unusual prices for newspapers simply because they were Legislators, unless it be on the plea generally urged, that the money comes out of the State Treasury, a plea that should not be allowed to prevail any longer. The Committee feel assured that the press will take great pleasure in commending the economy exhibited, and which they, the press, so continually proclaim as the demand of the people of the State. They call attention to the fact that the reductions made are strictly in accordance with the advertised rates of said newspapers. Among the claims presented was that of the San Francisco *Bulletin* for $313, of which $204 was allowed; the San Francisco *Chronicle* for $192, of which $146 was allowed; the *Record-Union* for $610, of which $422 was allowed; the *Alta* for $125, $92 of which was allowed; the San Francisco *Call* for $125, $102 of which was allowed; and the *Jolly Giant* for $420, which was reduced to $250, and upwards of thirty others of the interior press, whose claims in many instances were exorbitant, all of which were reduced to a just allowance. The sum totel of the demands amounted to upwards of $2,027, while the amount allowed by the Committee was $1,592.

A resolution was adopted concurring in the report of the committee, and ordering the sums which they recommended.

Harding, from the Committee on Centennial Affairs, reported back without recommendation the bill appropriating moneys for the representation of California scenery and curiosities at the Centennial exhibition.

Hart gave notice of the early introduction of bills making it a misdemeanor for railroads in this State to require passengers to obtain tickets before starting upon their journey, also making it a misdemeanor for them to discriminate upon the fares of passengers, who do not obtain tickets immediately upon starting for any particular place.

Bills were introduced by Hayne authorizing the Board of Travel and of Lompoc School District in Santa Barbara county, to issue bonds for the erection of school houses, also an act for the relief of N. A. Covarrubias, Sheriff of Santa Barbara county.

The Constitutional Convention question was made a special order for March 1st.

Upon consideration of general file the House indefinitely postponed Laine's bill repealing the libel law, and passed the act regulating the use of artesian wells and preventing the waste of subterranean waters.

Babcock Acquitted.

ST. LOUIS, Feb. 24th.—The jury in the Babcock trial returned a verdict to-day of not guilty.

There were 7,740 failures in the United States in 1875, of which the gross liabilities were $201,000,353. This is nearly treble the failures in 1871, and 2,000 more than in 1874.

"So you wouldn't take me to be twenty?" said a rich heiress to an Irish gentleman; while dancing a polka. "What would you take me for then?" "For better or worse," replied the son of the Emerald Isle.

The population of Ireland is set down at 6,412,397, showing a falling off of nearly 3,000,000 in less than twenty-five years. The Roman Catholics have slightly decreased in numbers, and the Episcopalians and Presbyterians slightly increased since 1851.

Under the Iowa civil damage law the wives of drunkards in Sioux City have sued liquor dealers for sums amounting in all to $60,000.

BOSS TWEED.

Old Boss Tweed at last is freed,
He's gone away for good
On board a yacht, the old man got,
And out to sea it stood,

And when old Grant finds out he can't
Help Babcock any more,
He'll take a yacht, like Tweed has go',
Up to his prison door.

And then he'll say, Babcock, away;
Come from this prison cell,
A pardon's here, your heart to cheer,
The courts can go to h—ll.

Get on this yacht, I have got,
And go to Louisiana;
Phil Sheridan, with bayonets, can
Make you lord of the manor.

If there a muss or any fuss,
And Democrats begin it;
My little Phil, with bayonets, will
Send you back to the Senate.

These Democrats are churley rats,
You'll see how they'll cavort
When they shall learn, in my third term,
I over-rule the court.

Accident at the Tunnel.

Wednesday evening a blast was let off at the tunnel in shaft No. 3, and Mr. Sullivan, the foreman of the blasting corps, was instantly killed by it. It seems that according to custom, many holes were drilled and filled with giant powder, and all were supposed to be exploded at once. Unfortunately one charge failed to go off at the right time, and Mr. Sullivan went in and took up a pick when the tardy charge exploded, blowing the pick through his breast. His body was brought to this city yesterday for interment.

Cora Phillips, Mary Holmes and Annie Sattelie, the three courtesans who were arrested by Officer Fonck on Tuesday, were released by Judge Gray on their own recognizance. Annie Sattelie so far disregarded her word of honor to the court that she ran away. The other two were arraigned at 10 o'clock yesterday morning before Judge Gray. Of course the court room was crowded with a select and appreciative audience, many of our first citizens and church-goers being on hand to take in the rare bit of sport. When the appointed time arrived the accused came into court amidst a sensation, but themselves perfectly brazen and apparently more careless about the matter than many of the spectators. We thought that we noticed several men dodge out of their sight as they came into the room, but we might have been mistaken. The assemblage was disappointed finally, as Col. Stanford, the attorney for defense, asked a continuance until Saturday, and the women were released on filing bonds of $100 each.

Mr. M. Kremer concluded his services as Clerk of the Common Council yesterday, and on the first of March he gives place to Mr. S. B. Caswell, who was elected his successor some time since. Mr. Kremer will speedily be installed as Tax Collector of the county. The Council passed a series of resolutions upon Mr. Kremer's retiring, which must be highly gratifying to him.

Mr. Geo. Neale, reporter for the Eighteenth Judicial Distritct Court, is in our city for a short vacation. During his stay he will instruct a class in "Edeography"—a new and simple system of Stenography, or short-hand writing, which may be acquired in a month or six weeks. See advertisement.

Two men got into a difficulty in a saloon on Commercial street Tuesday afternoon about half past five, when one of them struck the other on the head with a pair of brass knuckles or a slung shot, cutting him terribly. No arrest has as yet been made.

By an advertisement which appears in another column it will be seen that Mr. Manning, the well known gas fitter and plumber, has taken unto himself a partner. The new firm will be known as Manning & McMenomy, and they continue at the former stand, No. 32 Spring street.

Washington rumors were circulated last night that Minister Schenck had resigned.

EDEOGRAPHY

IS the best system of Phonetic Short Hand, because it can be learned in ONE MONTH by any person of ordinary capacity, and because, as compared with other systems, it requires the fewest strokes to represent any given number of words, and in writing which the pen has to be raised the least number of times.

Instructions in this much coveted art will be given by

Mr. Geo. Neale,

At the residence of Dr. Hobbs, Alameda street, who promises his pupils a more "royal road" to short hand than any which "has been yet discovered."

Special Notices.

J. LAMB, Merchant Tailor, has established a shop on Main street, next door to the Orient Saloon, where he will be pleased to welcome his old customers and the masculine public in general. Mr. Lamb makes a specialty of the finest fitting and best made pantaloons, and he has no superior on this coast.

The crowning glory of a man is a good hat. It is the distinctive mark of a gentleman. No matter if his clothes are threadbare, if he has a stylish hat; people don't look at anything else; in fact, it not only covers his head but the defects of all sorts which would become visible were his hat not perfect. Desmond has the most stylish and perfect articles at his store on Main street, in Temple Block, that can be made.

Dr. Kirkpatrick has removed his office to his handsomely furnished rooms on south side of Temple street, a few doors west of Spring street.

One dozen wagons, assorted sizes and kinds for sale at reduced prices at Stoddard's hardware store, 78 Main street. aug17:tf

F. Adam, merchant tailor, has just received an elegant lot of cloths, cassimeres and suitings of the latest popular patterns. The stock is probably the largest of its kind to be found in the city, and no one can fail to be suited in making a selection. Call on F Adam, Spring street, for your stylish suits. sep1tf

Moore's Restaurant, on Commercial street, is the proper place to go for a good meal, with a good cup of coffee or tea to drink with it.—There is probably no restaurant on the Pacific coast where so many of the substantials and so many of the luxuries may be had for 25 cts. Don't forget the place—Moore's Restaurant, Commercial street. Private eating rooms have been neatly fitted up for the accommodation of ladies. 15-tf

Removal.

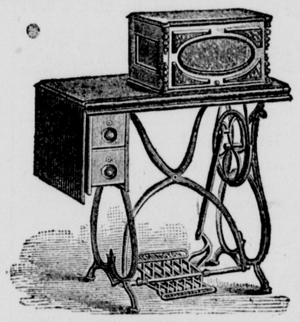

Messrs. Johannsen & Co. have removed their large furniture warehouse from Ducommun's building to the building on Main St., near First, formerly occupied by L. Roeder. The public are invited to call at the new establishment and inspect the elegant lot of goods on display, which comprises everything in the line of furniture and upholstery, from a pine table and bedroom suit to an elegantly carved parlor set. With largely increased conveniences, and many new advantages, Messrs. Johannsen & Co. hope to keep pace with the growth of their business and give their customers the best establishment of the kind in the city.

REASONS WHY

— THE —

REMINGTON FAMILY SEWING

MACHINES

Are Superior to All Others.

FIRST—THEIR SIMPLICITY,

The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION

of the Machine is such that it may be run at a higher rate of speed than any Shuttle Machine now in the market. In factories where the rate of speed has been registered, over

1,000 Stitches per Minute

have been attained with ease.

THIRD—THEIR DURABILITY

being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines they will wear a long time without repair of any kind.

FOURTH—THEIR ADAPTABILITY,

By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS,

Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE

Feed which may be raised or lowered at pleasure.

SEVENTH—ALL THEIR MOVEMENTS

are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing company in America, possessing a world-wide reputation in the manufacture of their firearms, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the

REMINGTON

It arouses the jealousy, opposition and persistent mis-representation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents devotes the largest part of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

"With malice toward none, and charity for all," it will be the aim of the agent of the

Remington Sewing Machine

to afford to all an opportunity of testing its merits with those of any other, and let them make their own selection.

LOCAL BREVITIES.

It looks like rain.

Benefit of "Little Dorritt" to-night.

Fanchon for to-moarow's mattince.

The schooner Pacific sailed for Cuffey's Cove Tuesday.

Mr. Millner, of the Farmers & Merchants' Bank, officiates as Dupty City Treasurer.

To-morrow afternoon will take place the farewell mattinee of the Piper Company.

A small bunch of keys was found yesterday. The owner can recover property by calling at this office.

Mr. F. W. Wood, Mayor Beaudry's Secretary, left for a business trip to Bakersfield yesterday.

The Congregational Social, held at the residence of Mr. A. W. Potts, on Wednesday evening, was a very pleasant affair.

Mr. A. H. Tuttle displayed a fine lot of Cactus plants in front of Lewin & Co's Book Store yesterday, which were brought from Arizona.

Mr. J. Z. Smith has sold some fifteen sacks of Egyptian corn for seed. The new grain will be raised quite extensively next season.

The Mayor's Court has been extremely dull of late. There is no danger that our Chain Gang will lose its efficiency for want of recruits.

A runaway in front of Mr. J. Z. Smith's store, on Aliso street, yesterday resulted in the demolition of a farmer's wagon.

Some of San Francisco's belles appear at masquerades in the personation of Apollo Belvidere and the Greek Slave. Novel and interesting costumes!

Dr. M. S. Jones, of Santa Ana, was in the city yesterday. He reports the crops in that locality in a splendid condition, and the whole country developing rapidly.

They have a "7:30, 11" club in Stockton. The members commence playing poker at 11 o'clock P. M. and don't quit until 7:30 the next morning.

It is rumored that when one of the persecuted soiled doves is arraigned before the Justice Court to answer the question, "Why do ye thus?" she will recite a chapter of Revelations. Who knows what wonders might transpire?

Our suggestion for the organization of an amateur dramatic or music club has already received some recognition. A home minstrel company is projected, to give an entertainment every four or six weeks.

Some of the misguided sisters were yesterday invited by Officer McFadden to come before his honor, Judge Corrillo, and rise and explain. They will interview the Judge at 10 o'clock this morning, and may a "tale unfold which will" etc.

The Cantata of Esther is billed for the 23d, 24th, 25th and 26th inst. in San Diego. The papers are loud in their praise of the affair, and we suppose that Professor Hakes is meeting with as good success among the San Diegans as he did in Los Angeles.

Our sidewalks are to be cleared of their long accumulated rubbish—the dry goods boxes, peanut stands, etc., that cause so much vexation to pedestrians. This is a good measure on the part of the Council, and one that was needed long ago.

Uncle Tom's Cabin will be presented at Merced Theatre to-night, in which "Little Dorritt" will take the part of Eva. As the little one is an especial favorite, at this her benefit, we apprehend a crowded house.

The Novelty Theatre is soon to have an acquisition to its force in the return of Charlie Harris and two new lady performers, Misses Minnie Morris and Frankie Moore, of San Francisco.

Two of our police officers will have to answer to the charge of insulting an ex-M. D. We do not apprehend that it is a very serious matter. It costs only five dollars to bury an Indian *a la mode*, and yet such funerals are scarce.

We hear that Mr. Mendel Meyer has received a proposition to join a San Francisco minstrel company as musical director, but has declined the offer. Mr. Meyer managed the musical part of the 'Thirty-Eights' entertainment so well that he has established a wide reputation.

Call at once and see what Mr. H. H. Tuttle has in the line of Cactus, for sale at the Candy and Book Store opsite the Postoffice. He is determined to close out his entire lot by Saturday evening. Considering the expense in procuring the collections, he is offering bargains.

"Ten Nights in a Bar Room" was presented to a full house at Merced Theater last night, and was supplemented by the excruciating farce of "The Limerick Boy." To-morrow night we will say good-bye to this popular company, and they should have substantial benefits before leaving.

We are to have a regularly appointed municipal smeller who will search out nuisances that endanger the health and comfort of our city, and report them at headquarters. He will receive the fines in such cases as his remuneration. We think the plan may operate well, as it will be reduced to the principle of no work, no pay.

McKee's New Trial.

ST. LOUIS, Feb. 25th.—In the United States Circuit Court to day Colonel Hatch, counsel for McKee, filed an affidavit in support of the motion for a new trial. Some editorials in the *Republican*, which were claimed to have served to prejudice the case against defendant, were also filed. The affidavit mentioned is by Watson Foster, of Pike county, Mo., who charges H. F. Summers, a juror on the McKee trial, with having prejudged by stating, previous to the trial, that he believed McKee guilty, and that he was the biggest toad in the puddle. The Court ordered defendant to have leave till the 5th of March to give additional affidavits. The prosecution has till ten days thereafter to answer the same and the defendant until the 20th of March to file the testimony in rebuttal.

Salt Lake News.

SALT LAKE, Feb. 25th.—The Democratic Central Convention was held this evening for the purpose of affecting the organization and adopted resolutions arraigning the Republican party for disregarding the Constitutional obligation; demanding the separation of church and state, that the existence of the Democracy in Utah is a standing menance and reproach to the present Government. Radical reformation in Utah and municipal administration is demanded.

New York News.

NEW YORK, Feb. 25th.—The cold snap has abated considerably to-day. Thermometer 29.

In the Tweed civil suit to-day, Gov. Tilton was placed on the witness-stand to testify, remarking upon the investigation of frauds against the city in 1870, he gave his recollection of Garvey, Tweed & Co. Quite a large crowd gathered to hear him testify, although nothing important was developed.

NEW ORLEANS, Feb. 25th.—In the House to-day a resolution was adopted that a committee of seven be appointed to investigate the charge against Gov. Kellogg, and to ascertain if the charge is true, and if so to prepare articles of impeachment. Speaker appointed Young, Kidd, Wiltz and Jeffreys, Democrats, and Loviss and Demar, Republicans.

Beecher.

BROOKLYN, Feb. 26th.—Now that the Advisory Council has closed and its results have been given to the public, Brooklyn experiences a feeling of relief. The verdict by the Council on the questions therefore is the subject of general discussion and comment. The *Eagle* says the Council really leaves matters where they were with the advantage to Plymouth Church, and that it sustained her on every point. We think the effect upon the doubtful will be to gravitate them to the Beecher side. Those who have made up their minds against Beecher's innocence are not likely to be changed. There is not apparently the slightest probability that any inquisition would result differently from what this one did.

Arrested.

NEW YORK, Feb. 25th.—A broker, F. H. Eccles, was arrested yesterday, on warrants issued out by the Ohio Valley Bank of Wheeling, Virginia, on a charge of fraud. Eccles, it is alleged, decamped and went to Canada with about $40,000 belonging to the bank entrusted to him to purchase government bonds.

Babcock.

NEW YORK, February 26th.—A special to the *Tribune* from Washington says Babcock will retire from the White House, and probably be continued on duty in Washington as Major of Engineers and Superintendent of Public Buildings and Grounds, and also as Chief Engineer of government works.

Levi P. Luckey, who is in reality the President's Private Secretary, will also retire.

Another effect of the Babcock trial will be the speedy displacement of District Attorney Dyer.

It is understood that Babcock in order to remove from his reputation, as an army officer, all stain incident to his accusation, indictment and trial, will demand an immediate investigation before the Military Court of Inquiry.

Boyton.

NEW ORLEANS, Feb. 26th.—Capt. Boyton completed his one hundred miles at 5 o'clock last night. He made the trip in twenty-five hours.

War in Spain.

MADRID, 25th.—The Gazette official publishes the details of the submisions which have so far been made by the Carlists. LANSING, the Cashier who robbed the Bakersfield bank was also Deputy County Treasurer.

Messrs. Spence and Freeman assignees of Temple & Workman, employ only the lawyers formerly engaged by the banking firm before its failure. General Eastman and Mr. Bicknell.—*Republican.*

They have employed MCCONNELL, BICKNELL & ROTHCHILDS; BRUNSON, EASTMAN & GRAVES and J. G. HOWARD that we know of. Were all these gentlemen attorneys for the banking firm? If they were the management and end of the concern were no credit to their legal acumen.

WITH the exception of the few who expect to hold office under it, we have yet to find a man who favors the passage of what is known as MCCONNELL'S Irrigation Bill. All concede that it is unjust in its provisions and imposes a heavy tax on the farmer without giving him anything like an adequate return therefor. A number of remonstrances against the passage of this bill have already been sent to the delegation, and we advise the farming community to continue in the good work. To pass the bill as it now reads will be to create an onerous law from which only those who enforce its provisions will reap a benefit. We need legislation on irrigation, but it is legislation that will benefit the cultivators of the soil, not oppress them.

THE Bakersfield people are more fortunate than the people of Los Angeles. When their bank is robbed they find the culprit and compel him to return the funds. The Los Angeles people lose their money and cannot find the pocket it fell into. A few days ago it was announced that the Cashier of the Bakersfield bank had been knocked down and the bank robbed of $23,000. It turns out as the HERALD predicted at the time, that the Cashier was himself the robber. He has confessed and surrendered the money.

Advancing Backward.

As might have been expected, the *Express* is endeavoring to escape the self stultifying position in which it has placed itself on the fraudulent title question, by imitating the peculiar movement of the crawfish when it advances backward with its tail ahead. It now attempts to dodge the issue by writing long homilies on the injury which will be worked on innocent purchasers through a setting aside of the patents issued by the Government to such grants as the Lomos de Santiago. To those who have read the opinion of Secretary CHANDLER, the transparency of this position is so apparent as to need neither comment or explanation. The Secretary explicitly says that the evidence is conclusive that the present owners of the land were aware of the fraudulent means by which the grant had been increased in area when they became its purchasers. He then proceeds to advise that in the setting aside of patents known to have been obtained by fraud, care should be taken not to trespass on the rights of innocent purchasers. This disposes of the rodomontade in Senator JONES' elephant, on those who have purchased parts of the grants in good faith and without a knowledge that the patents had been obtained through representations not sustained by the facts. In the opinion of the Secretary no man who is an innocent purchaser of a farm in the Lomos de Santiago, or any other grant, should be disturbed. The innocent purchaser's plea is perhaps made in the interest of Senator JONES, but the fact that at the opening of the lot sale in Santa Monica the agent of the company announced that they would not give purchasers a warrant and defend deed, is indicative that Mr. JONES became part owner of Santa Monica and San Vicente ranches with the full knowledge that the titles were clouded and that, sooner or later, they would come up for settlement. We will also remind our cotemporary that in its special pleadings it has overlooked the fact that the dispute about the title to lands in which its master is interested is not one in which the government is concerned. It is a question in which only private parties are contestants, and is as dissimilar from the case of the Lomas de Santiago as the *Express* is unlike an intelligent and respectable newspaper. When we get down to the substratum of the question we find that it is only those who are holding land to which they know their title is not good who are crying out against investigation. The argument of the JONES foundling that though a grant may have been originally void, and the boundaries extended from four to eleven leagues, it should not now be disturbed, is similar to that of a Police Court shyster who, after having received the stolen goods as a fee, sets up a plea of not guilty and maintains the innocence of his client. It is an exhibition of moral turpitude that disgusts all right-minded men.

Railroad Progress.

The time is near at hand when the gap in the railroad between this city and San Francisco, will be so insignificent that the stages will traverse it in a few hours. One year ago the company fixed on the Fourth of next July as the day on which they would give us a continuous rail to the metropolis, and the indications now are that they will redeem their promise. Within the next ten days tunnel No. 5, in Tehachape Pass, will be completed. This tunnel has been the bar to progress in track laying for some time. The other tunnels and the road bed through the pass are ready for the ties and iron, and in a fortnight the work of track laying will go forward at the rate of two or three miles per day. Once through the pass, the country for a long distance is level, and but little work is necessary to prepare the bed for the ties and rails. In Solidad Pass every available grader is at work and before the track reaches that pass the grading will be completed. It is safe to say that by the middle of May the road will be completed to the Northeastern end of San Fernando tunnel. It is now being operated from this city to the Southwestern end. Thus it will be seen that before two months have elapsed the gap between the two ends of the road will not exceed two or three miles. The Superintendent of the San Fernando tunnel is confident he will have it completed by the first of July. The company have now at Caliente, and enroute to that place, rails and ties sufficient to build one hundred and twenty-five miles of road—the number of miles to build to close the gap is one hundred and twenty-four. Meanwhile the Southern Pacific track East of this city is streching toward the Colorado. The cars are running to Whitewater station in the desert one hundred and fifteen miles from this city, and soon another section of twenty miles will be completed beyond that point. It is the purpose of the company to have the road finished and in operation to the Colorado river by Fall. They will not stop there, but will push on Eastward until a connection is made with some road running Westward. This is a favorable showing for Southern California. The Southern Pacific Railroad Company are building more railroad than any other three companies in the United States, and every mile of track they build aids in the development of this part of the State, and adds thousands of dollars to our permanent wealth. Let the good work go on. With the completion of a Southern overland road Southern California becomes a rich and prosperous country, and Los Angeles its metropolis.

BABCOCK goes free. The Jury says he is not guilty. We said when he was arrested that he would go free unless he could be sacrificed without an opportunity to tell what he knew. BABCOCK is as guilty as JOYCE and others who have not escaped, but he was on the inside and had a friend at Court. To have let him suffer would have been to loose his tongue and he could tell too much. BAB. is all right. What an immaculate Government ours has got to be.

THE *Republican* of last evening propounds the following string of conundrums:

There is general distrust of an assignee of a bank who is a large debtor to the concern. The public are anxiously inquiring when Mr. Freeman, assignee, will commence suit against Mr. Freeman, debtor, for the large amount the latter owes Temple & Workman's bank. They also want to see Mr. Freeman, assignee, commence immediate suit against D. Freeman, endorser, on two notes of the aggregate amount of $5,573. Finally they want to see how economical Freeman, assignee, can be, in employing lawyers to prosecute D. Freeman, the large debtor to Temple & Workman.

At four or five o'clock this morning three burglars were discovered in the stable at the residence of J. A. Drinkhouse, South Park. Two of the ruffians escaped in the darkness but the third was observed by officer running in the direction of Second street and pursued. The fleeing burglar was swift of foot and by the time the police reached Third street the fleet burglar had turned into Bryant and the police reluctantly gave up the pursuit. A policeman standing at the corner of Third and Brannan streets saw a man passing leisurely along hatless and out of breath. He was overhauled by the officer and recognized as the party who had been chased.

The Bakersfield Robbery.

SUMNER, Feb. 24th.—The mystery which veiled the daring and well executed robbery of the Kern Valley bank, in Bakersfield, on the night of February 17th, is at last solved. The detectives who have been using every exertion possible, last night interviewed Mr. S. J. Lansing, the cashier, and accused him of having committed the theft. He made a full confession and told them where all the money was. Eight thousand dollars was found in an old trunk in the wood-shed back of the bank building, and the remainder in the wall of the bank. This had been concealed there by cutting a hole in the wall paper and dropping the money into it. The mark made in the paper was concealed by hanging a picture over it. The money has all been recovered and Lansing is under arrest. Yesterday evening detectives A. W. Stone, of San Francisco; J. B. Hume, of Sacramento; Keyser, of San Francisco, and Jerome Meyers, ex-Chief of Police, Stockton, who have been for several days past looking up the robbery of the Kern Valley Bank, of Bakersfield, called upon Mr. S. J. Lansing, cashier of the bank, and accused him of the crime and gave him their reasons. Every incident connected with it pointed directly towards him. They talked to him for three hours and told him he had not been robbed, but was the culprit himself. He listened to all they had to say during the three hours without making any reply than said, "Oh, my mother!" and confessed having taken the money and concealed the gold in the walls of his room in the bank building, and the gold notes and currency in the wood house in the rear of the bank. He says he struck himself repeatedly in the face and on the head with his clenched fist, which produced the marks that were reported as have been made with a sand-bag. The money was all found with the exception of $20. He said he had no accomplice in the affair. He was arrested and gave bond in the sum of $5,000.

Legislative Proceedings.

[FROM THE SPECIAL REPORTER OF THE DAILY HERALD.]

SACRAMENTO, Feb. 24th.—The Senate met at ten o'clock.

After a little preliminary business the Senate took up for consideration the general file and acted upon it as follows:

The bill authorizing the widening Dupont street, San Francisco. After much discussion and amendment in the Committee of the Whole, the rules having been suspended, the bill was passed.

Flint called up the Assembly bill, re-incorporating Salinas City, and the rules were suspended and the bill passed.

The Assembly bill providing for the management of the Napa Insane Asylum and reorganizing the Board of Trustees thereof by legislating the present Board out of office, after being read at length was passed by a vote of 30 ayes to 6 noes.

McCune introduced a bill providing that all lists of property made for the Assessor shall contain the list of all property owned by the person assessed on the first Monday in March of each year.

After several roll-calls on an adjournment the Senate adjourned.

The greater part of the day was consumed in desultory discussion, and but little was done towards clearing the file. There are 67 bills on the general file and four special orders awaiting the consideration of the Senate.

The Assembly met at 11 A. M.

Heinshaw, from the Committee on Public Expenditures reported at lenth, that the Committee had considered the accounts presented for newspapers and periodicals furnished the members in accordance with resolutions passed to that effect. After careful investigation and comparison they were compelled to reduce many of the accounts charged as being exorbitant although not unusual during Legislative sessions. They were at a loss to know why Legislators should be compelled to pay unusual prices for newspapers simply because they were Legislators, unless it be on the plea generally urged, that the money comes out of the State Treasury, a plea that should not be allowed to prevail any longer. The Committee feel assured that the press will take great pleasure in commending the economy exhibited, and which they, the press, so continually proclaim as the demand of the people of the State. They call attention to the fact that the reductions made are strictly in accordance with the advertised rates of said newspapers. Among the claims presented was that of the San Francisco *Bulletin* for $313, of which $204 was allowed; the San Francisco *Chronicle* for $192, of which $146 was allowed; the *Record-Union* for $610, of which $422 was allowed; the *Alta* for $125, $92 of which was allowed; the San Francisco *Call* for $125, $102 of which was allowed; and the *Jolly Giant* for $420, which was reduced to $250, and upwards of thirty others of the interior press, whose claims in many instances were exorbitant, all of which were reduced to a just allowance. The sum totel of the demands amounted to upwards of $2,027, while the amount allowed by the Committee was $1,592.

A resolution was adopted concurring in the report of the committee, and ordering the sums which they recommended.

Harding, from the Committee on Centennial Affairs, reported back without recommendation the bill appropriating moneys for the representation of California scenery and curiosities at the Centennial exhibition.

Hart gave notice of the early introduction of bills making it a misdemeanor for railroads in this State to require passengers to obtain tickets before starting upon their journey, also making it a misdemeanor for them to discriminate upon the fares of passengers, who do not obtain tickets immediately upon starting for any particular place.

Bills were introduced by Hayne authorizing the Board of Travel and of Lompoc School District in Santa Barbara county, to issue bonds for the erection of school houses, also an act for the relief of N. A. Covarrubias, Sheriff of Santa Barbara county.

The Constitutional Convention question was made a special order for March 1st.

Upon consideration of general file the House indefinitely postponed Laine's bill repealing the libel law, and passed the act regulating the use of artesian wells and preventing the waste of subterranean waters.

EASTERN NEWS.

Babcock Acquitted.

ST. LOUIS, Feb. 24th.—The jury in the Babcock trial returned a verdict to-day of not guilty.

There were 7,740 failures in the United States in 1875, of which the gross liabilities were $201,000,353. This is nearly treble the failures in 1871, and 2,000 more than in 1874.

"So you wouldn't take me to be twenty?" said a rich heiress to an Irish gentleman; while dancing a polka. "What would you take me for then?" "For better or worse," replied the son of the Emerald Isle.

The population of Ireland is set down at 6,412,397, showing a falling off of nearly 3,000,000 in less than twenty-five years. The Roman Catholics have slightly decreased in numbers, and the Episcopalians and Presbyterians slightly increased since 1851.

Under the Iowa civil damage law the wives of drunkards in Sioux City have sued liquor dealers for sums amounting in all to $60,000.

BOSS TWEED.

Old Boss Tweed at last is freed,
He's gone away for good
On board a yacht, the old man got,
And out to sea it stood,

And when old Grant finds out he can't
Help Babcock any more,
He'll take a yacht, like Tweed has got,
Up to his prison door.

And then he'll say, Babcock, away;
Come from this prison cell,
A pardon's here, your heart to cheer,
The courts can go to h—ll.

Get on this yacht, I have got,
And go to Louisiana;
Phil Sheridan, with bayonets, can
Make you lord of the manor.

If there a muss or any fuss,
And Democrats begin it;
My little Phil, with bayonets, will
Send you back to the Senate.

These Democrats are churley rats,
You'll see how they'll cavort
When they shall learn, in my third term,
I over-rule the court.

Accident at the Tunnel.

Wednesday evening a blast was let off at the tunnel in shaft No. 3, and Mr. Sullivan, the foreman of the blasting corps, was instantly killed by it. It seems that according to custom, many holes were drilled and filled with giant powder, and all were supposed to be exploded at once. Unfortunately one charge failed to go off at the right time, and Mr. Sullivan went in and took up a pick when the tardy charge exploded, blowing the pick through his breast. His body was brought to this city yesterday for interment.

Cora Phillips, Mary Holmes and Annie Sattelie, the three courtesans who were arrested by Officer Fonck on Tuesday, were released by Judge Gray on their own recognizance. Annie Sattelie so far disregarded her word of honor to the court that she ran away. The other two were arraigned at 10 o'clock yesterday morning before Judge Gray. Of course the court room was crowded with a select and appreciative audience, many of our first citizens and church-goers being on hand to take in the rare bit of sport. When the appointed time arrived the accused came into court amidst a sensation, but themselves perfectly brazen and apparently more careless about the matter than many of the spectators. We thought that we noticed several men dodge out of their sight as they came into the room, but we might have been mistaken. The assemblage was disappointed finally, as Col. Stanford, the attorney for defense, asked a continuance until Saturday, and the women were released on filing bonds of $100 each.

Mr. M. Kremer concluded his services as Clerk of the Common Council yesterday, and on the first of March he gives place to Mr. S. B. Caswell, who was elected his successor some time since. Mr. Kremer will speedily be installed as Tax Collector of the county. The Council passed a series of resolutions upon Mr. Kremer's retiring, which must be highly gratifying to him.

Mr. Geo. Neale, reporter for the Eighteenth Judicial District Court, is in our city for a short vacation. During his stay he will instruct a class in "Edeography"—a new and simple system of Stenography, or short-hand writing, which may be acquired in a month or six weeks. See advertisement.

Two men got into a difficulty in a saloon on Commercial street Tuesday afternoon about half past five, when one of them struck the other on the head with a pair of brass knuckles or a slung shot, cutting him terribly. No arrest has as yet been made.

By an advertisement which appears in another column it will be seen that Mr. Manning, the well known gas fitter and plumber, has taken unto himself a partner. The new firm will be known as Manning & McMenomy, and they continue at the former stand, No. 32 Spring street.

Washington rumors were circulated last night that Minister Schenck had resigned.

NEW TO-DAY.

EDEOGRAPHY

IS the best system of Phonetic Short Hand, because it can be learned in ONE MONTH by any person of ordinary capacity, and because, as compared with other systems, it requires the fewest strokes to represent any given number of words, and in writing which the pen has to be raised the least number of times.

Instructions in this much coveted art will be given by

Mr. Geo. Neale,

At the residence of Dr. Hobbs, Alameda street, who promises his pupils a more "royal road" to short hand than any which "has been yet discovered."

you are wanting to buy a Sewing Machine, try a new Wilson and you will have no other.

trial will convince the most skeptical of superiority over all others, being adjustable in all its parts, every movement being active, with a perfect tension and adjustable feed. It is simple, strong, durable and cheap, light and rapid running, doing all the different varieties of sewing from the finest fabric to the heaviest cloth or leather.

The latest improved Wilson will not run backwards, thereby avoiding the breakage of needles and thread and necessitating the removal of the goods from the machine while winding the bobbins as is the case with all other machines. HIGHEST PREMIUM AT THE WORLD'S FAIR, Vienna 1873. A very important improvement has lately been added to the Wilson. Call and see it before purchasing elsewhere. To try one is to buy one.
